

Heartfelt Truth

I see your face inside everything I do
You open the heart, the heart inside of me
And every time I go
And every time I show
My faithful look to you

Open wide
And tell me what I show
How far do I go my love
A kiss is just a kiss
And I just can't resist your kiss

Mmmm Mmm

So where I go
Deep inside my show
Deep inside my heart to find my heart
And how much can I be
And how much can I do
And what I just say I do for you

I cried everyday
I tried to stay my way
And I doubt of all that I say to you everyday

Ah ah ah... I I love you
And I always will
Come through, my dear, for you

Open my heart
Together we will stand
Deep inside the problem like a plan
And how much more can I say
And how much more can I be
But this is, this is why I came to you u u u
