

LOVE GOES

*Love goes this way
Love goes that way
Which way am I at*

I say now
I know these decisions that may haunt just buy me nothing now
But I say now that's all just a form of attack

And she says, now

*Love goes this way
Love runs that way
Which way do you go for that*

I say, now

Which way does love runs in now
Which way do stars shine
Which way is our bedroom plan of attack

Right now
Right now
Right now
Oh oh oh oh oh oh

Battlegrounds are rotten, she says
That's all part of the fun
She goes out in public
And she's trying to blow my mind
She goes out and says that she's now a part of that scene
But what she says is she's just another part of me

I said then and she said

*Love goes this way
Love goes that way
Which way does your heart swing now*

*Love went your way
Love went my way
Which way does your heart swing right now
Ah baby*

Little girls walk in the park you say

You think all the times that you go walking in the park when
these girls smile smile they smile at you

But nobody knows what that kind of place is that
Every body wants to be in
and that's in part a part of you

*Love goes this way
Love goes that way
Which way does your heart swing now
Ah, baby now
Ah, baby now
Oh, oh, oh...*
