

Oh Well

Baby wants her loving, she wants her loving late at night

Pulls me off the pavement, hits me hard and Baby rolls me right

So I've had to move that way and I I've had to go out sound
the way for you,
All the time...

What can I do for you

What did I do

Stay the night

Stay the night inside my arms

Love me to death and treat me right, Break my heart and
tear me apart

Just love me right, Turn it up and down and Love me so

When you're on my side, I'm finding for it and I'm finding
gold
For me...

If I stand for you

In time and for it

Listen for it all

For me and I and you and hold you tight

Where's your loving now

It's 5 o'clock, that's the easy part for you

Crazy stuff side to side and sometimes there's nothing I
can do

I just hold my hands up high and reach the sky and thinks
about the, the times I go and everything is all bright and
hold my head up for all our lives

And the passions fly

It's gonna last

Oh, oh... for you and me

For the two...

It's like the human digest of love

It's a kind of sign of all that's not far from me

Bang your drum and see my hand, Walk by and twist my hand
for you

And me...

Out that door, by the sofa set

Where to find

Where I know where you're going

It's not better yet

But you are the kind of girl That mystifies,
for you...

Shaaaa...

Wake me up when the time is up and don't look by my clients
to fall you

And that's the time, time for the decision

Special, In spite of what we do

In this time...

Oh well, oh well
