

# TIME

Time  
My, my friend  
Trying to be  
My friend  
Maybe not

It stands in front of me  
And it tries to see  
Me  
Maybe not

Doesn't me and time  
Glorify the stars  
For everybody often finds to be  
Deep inside the lights, deep inside the nights  
For you, u, u, u,

Time  
My friend  
You stand with me  
And you stay with me  
again  
To the end  
Of time

So  
I knew you  
Almost  
You Not

And all that's happened  
Happens  
Happens for the need

In sacred times and prophets  
And in proverbs  
And in mediocrity

Oops - - - just a guess

Piss off all that time

Let it go o o o o  
My love

Is time  
At all  
A friend, at all

It's just think or forget  
All that time  
It comes back  
And it's never there at all

It tries to run us out  
And it tries to push us on  
So out  
I  
I go
