

WHERE'D IT GO

Star bright and spot lights
In every light, it often shines
But you better hope
You catch it on the run

So bright
Tonight

*Oh, don't you know
Don't you know
Oh, don't you know
Oh, where'd it go
Oh
Where'd it go
Oh, don't you know
Where'd it go
Oh.... Oh.... Oh....*

Shake down, as you can
Race with time
As you stand
And everybody has a side of me
And she chooses by the side or side
Everybody's had a side
And she's horrified
Every time she has to see

She says, I gotta go here
and I gotta go there
and I gotta go up there
although I, I just want to be a part of me

and I say

*Where'd it go
Oh, where'd it go
Oh, oh, Where'd it go
Oh, where'd it go
You let it go
You let it go
And where'd it go
GONE!*

And It rains down in time
And everybody's blind
Everybody shines, but cannot see
And constant conversation breaks
And everybody wants to shake

And I just want to crawl inside the sheets

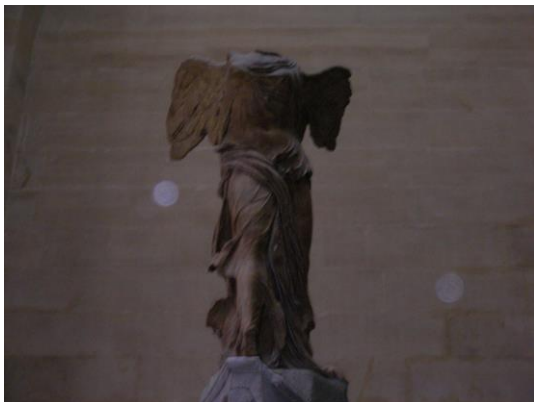

And I say
Where'd it go
Oh, where'd it go
Oh...
Oh, where'd it go
Oh, let it go
Oh, let it go
I wanna go
Where it goes

Round, round
Downtown
Shake down
You see

Round, round
Is downtown
And it's a shakedown
Can't you see?

So I ask, where'd it go
Oh, where'd it go
Where did all our stuff go
Where'd it go

Where'd it go
Oh, don't you know
Oh, let it go, let it go
Don't you know
When you go...
